Pray for Victory

In accordance with the recent resolution of the Congress, President Wilson, by proclamation, has declared Sunday, October 28, as a day for prayer for the success of American arms.

Organization Discussed

On Friday afternoon last a meeting, attended by parents and others interested, was held at the school house, to discuss the organization of a school auxiliary of the Red Cross.

It was decided that a request be made by the Principal, Miss Stella Danielson, to the local chapter to appoint a school committee and a treasurer of the school fund.

Many of the children are already doing Red Cross work.

WEEKLY GREETING

One hour of honest thought is worth whole weeks of ecstatic adoration, when ecstasy is not based on knowledge, and adoration does not issue in action.—F. Harrison.

Motor Trucks for Farmers

In States which have built permanent highways, the use of motor trucks by farmers is on the increase. Farmers find that by owning the powerful trucks, a load can be hauled as easily on one truck as formerly was handled by three two-horse wagons. The motor truck promises to revolutionize the haul for the man who raises crops. In the days of the past, the grain was hauled on wagons to the nearest elevator. Railroad trains then assumed the haul to the central markets. But, with the construction of hard-surfaced roads, the farmer with the motor truck is able to do his own hauling for a distance of 100 miles or even longer if he chooses, taking his products direct to mill. In other words, the farmer proposes to act independently of the steam railroads. Probably he can make a carrying rate much less than the tariffs of the railroads. The motor car promises to be distinct aid to the farmer. The good road makes it possible. Farmers are familiar with the outlook and will be found to be the strongest supporters of the good roads movement, which is developing a demand for hard pavements through rural sections. And a reduction in the cost of marketing products from the farm should eventually give the consumer in the city the advantage of lower food prices.

Yesterday, being "Liberty Day," the school had a "rainy day session" and the Postoffice maintained Sunday hours. In the afternoon there was a liberty tea and sale for the benefit of the Red Cross.

Dairy Inspection Report

The inspector of the State Dairy Bureau, M. E. Coulter, has completed the work of inspecting the Monterey Peninsula dairies and milk routes, with the following results:

T. H. Camp, Forest Hill Dairy, score 82.2 per cent.

Hutton Estate, the Del Monte Creamery, 71.1 per cent.

E. S. Leonard, Leonard's Dairy, 78.8 per cent.

Metcalf & Hall, Purity Dairy, 75.2 per cent.

Andrew Stewart, Carmel Dairy, 45 per cent.

Thomas Oliver Dairy, 44.8 per cent.

C. F. Tibbetts Bottling Plant, 75 per cent.

C. F. Tibbetts, Pine Ridge, Del Monte and Lighthouse Dairies, 44.8 per cent.

The wide variation in the figures may be attributed in most cases to the fact that some of the dairies do their milking outdoors.

NEWSPAPER SPACE

Newspaper men, as a rule, have but two things to sell—space and subscriptions—and it would be just as consistent to ask your grocer for a dozen cans of oysters "just to fill up" as to ask the editor for a dozen lines in his paper just to boost your little scheme in helping to "fill up" space. Try getting ten pounds of beans from your grocer for nothing or a free meal at the hotel just to make a show of business for the firm.

And another thing—simply because an editor is given a free admittance ticket to a show or any kind of an entertainment does not mean that the editor is getting something for nothing. Not on your life. In exchange for this courtesy the editor has perhaps given ten times the value of the ticket in free advertising, friendly notices gratis, etc.

Just pay for all the fine advertising given in such case and the editor will plunk up the spondulix for several tickets to any show that is pulled off. Most editors are glad to boost shows, etc., especially home affairs, and a complimentary ticket or two doesn't begin to pay him for his space and it's the newspaper costing every time that brings out the crowd.

No editors are not "moochers." They are only getting half pay for this kind of business at best, but don't be "finicky" about the half pay if the editor is willing to accept, and he usually is in home matters always.—Lincoln Messenger.

If your business is in Carmel have your Printing done at the Pine Cone Press.

La Playa Arrivals

Mr. and Mrs. Puffer, friends of the Wm. C. Watts, with Mr. Barkman, of New York, were week-end guests.

Mrs. Maude Arndt is visiting her sister at San Jose.

Miss Alice B. Martin of New York has taken the Swift cottage for a month.

Mr. and Mrs. Calvin C. Hogle are anticipating building in the south, where Mrs. Hogle's literary work will keep her five months. Mr. Hogle has just finished an interesting bungalow here with several unique suggestions. This is the third on Mrs. Hogle's land.

Mr. and Mrs. Charles Detrick are here on their honeymoon trip.

Mr. Wm. Kent of Montclair, N. J., has been asked by the Government to write an article on Conservation of Coal. He claims there is a terrific waste in many industries.

I wonder if our "Mike" will get in on this? A wealthy Murphy of Boston died awhile ago, entrusting his fortune to Harvard University, and stating in the will that any worthy young man who could prove that his name is Murphy could secure an education at Harvard.

The La Playa property, with furnishings, has passed into the hands of Mrs. A. D. Signor. Arriving at noon Monday, Mr. Chris Jorgensen departed at five o'clock, having completed arrangements for transferring the property.

The Modest Great

General Sir George Younghusband, in his recently issued "A Soldier's Memories in Peace and War," relates an interesting incident concerning Rudyard Kipling and Cecil Rhodes during the war with the Boers.

The empire-builder and the author were together at headquarters, and the soldiers, having learned of their presence, assembled around the distinguished men's tent and raised a mighty cheer.

Rhodes and Kipling stepped out to see what the excitement was about, and the cheering redoubled. "Take off your cap, they are cheering you!" said Rhodes to Kipling. Said Kipling to Rhodes, "No, they are not; they are cheering you." "They are cheering both of you," suggested General Younghusband. Whereupon both men, standing close together for support, shyly removed their hats.

WORDS AND THEIR ORIGIN

The word "school" is derived from the Greek word "scholē," meaning leisure, because, in former days, when people worked hard in the fields throughout the day, they could only learn in leisure hours.

"Sincere" comes from the Latin "sincere cera," without wax. The Romans were fond of filling up cracks in vases with wax, in order to make them appear perfect.

The word "salary" has an interesting origin. When a Roman Governor used to tour through the provinces he administered, the people had to provide him with food for his horses and salt for himself. The latter was his "salarium"—from Latin "sal," meaning "salt."

A photograph is the result of the "writing of the sun's rays, on specially prepared films. "Photo" refers to light, and "grapho" means "I write."

The word "alphabet" is made by combining "alpha" and "beta," the names of the first two letters of the Greek alphabet. "Omega" is the name of the last letter.

"Good-by" comes from "God-be-with-you," just as "Adieu" means "to God."

School Authority

to Visit Carmel

An important event in the history of the schools of Monterey county is the tour of inspection of the State Commissioner of Elementary Education, Dr. Margaret S. McNaught.

Seventy schools will be visited and ten or more lectures on progressive education will be given.

Dr. McNaught will visit the Carmel school early next month, and it is planned it is planned to have her lecture here under the auspices of the Arts and Crafts club.

The trustees, teacher and pupils of the Bay school, down the Coast, will be asked to attend here.

Guard Against Fire in the Forest

Matches

Be sure your match is out before throwing it on the ground. Break it in two.

Tobacco

Throw pipe ashes and cigarette and cigar stumps in the dust of the road, and stamp out the fire. Do not throw them into needles, leaves or brush.

Making Camp

Make a small camp fire. Build it in the open—not against a tree or log or near brush. Scrape away anything burnable near it.

Leaving Camp

Never leave a camp fire alone, even for a brief time, without pouring water upon it and then covering it with earth. See 1914 hunting license.

Bonfires

Do not make bonfires when it is windy, or when or where there is the least danger of getting beyond control. Avoid making a larger fire than necessary.

Fighting Fire

If you discover a fire, endeavor to put it out. If you cannot, get word of it to the nearest federal or state fire warden quickly.

Information

Keep in touch with the rangers. Ascertain the number of the district in which you are camping from United States forest rangers, county clerks or newspaper offices. Make a note of it on a card or memorandum book.
